ABSTRACT

Early childhood education and children's education in kindergarten are efforts to form, develop character aimed at children from birth to the age of six. The teaching that is carried out in providing educational stimulation is carried out in a fun way, one of which is in carrying out learning that is packed with competitions. Since the Covid-19 pandemic, the residents of Nangsri Kidul have never held the 17 August competition again. Therefore the KKN team took the initiative to make the August 17 competition one of our work programs so that the people in Padukuhan Nangsri Kidul can celebrate and enliven the Republic of Indonesia's second anniversary through the August 17 competition. To make the August 17 competition a success, we are working with the Padukuhan Youth Organization Nangsri Kidul to prepare for this competition. The competition was held for two days, namely on 6 and 7 August 2022. This competition took place at the Padukuhan Nangsri Kidul volleyball court. Several competitions were held, such as eating crackers, water relay, sack race, marble relay, and fashion shows.

1. Introduction

August 17 is a date that is interpreted as Indonesia's independence day. Every August 17, Indonesians celebrate their independence day as a form of nationalism. The character education of gandrung dance in the spirit of the archipelago is researched by Trisnawati [1]. The Biafra postage stamp (1967–1970) and the rhetoric of the pledge of sovereignty are examined by Inyang [2]. The concept of abstraction mathematics: learning innovation based on cultural heritage in the era of the COVID-19 pandemic was researched by Fiantika [3]. Nationalism in Official Tourism Websites of Balkan Countries was researched by Houliston [4]. Making sense of nationalism embodied in texts interpreted in 'Summer Davos' in China was researched by Gao [5]. Buddhism Has Been Insulted. Take Immediate Steps: Burmese Fascism and the Origins of Burmese Islamophobia, 1936–38 research by BOWSER [6]. The Pancasila Friendship Game: Design, Implementation, and Evaluation was researched by Jonathan [7]. Network Analysis of Emotional Responses in International Disputes was researched by Lim [8]. The feasibility of the PBL-reathnomath model for training elementary school students was investigated by Rahman [9]. An empirical test of the Competing Cofnas and MacDonald Hypotheses on Religious and Political Orientations was investigated by Dunkel [10].

Navigating Citizenship and National Identity in the American Territory: Nationalism in American Samoa and Puerto Rico is researched by Vézina [11]. Australian Universities, Skills and Internationalism After World War I research by Darian-Smith [12]. Changing Strategy by AKP Turkey: Learning Curve Theory researched by Shukri [13]. How 'Internationalism' and 'Nationalism' Mix in Higher Education: The Perspective of a Thai Provincial University was researched by Patamadilok [14]. The Impact of

Political Decisions in the WTO Dispute Resolution System: Political Negotiations in Adjudication was investigated by Gebeyehu [15]. William Butler Yeats: Hidden Nationalism researched by Kitishat [16]. Doing business in China: Challenges and opportunities researched by Angles [17]. Harmonization of Regional Regulations Based on Pancasila Values Through the Constitutional Court of the Republic of Indonesia was examined by Sudrajat [18]. Understanding India: Bhadrakalok, Modernity and Colonial India researched by Chakravartty [19]. Does Election Proximity Increase National Pride? Evidence from the Monthly Survey of Multi-ethnic Societies – Latvia investigated by Nakai [20].

Challenging Moderate Muslims: Indonesian Muslim Schools in the Middle of Religious Conservatism is researched by Zuhdi [21]. Experiencing Nationalism in International Sports: Shanghai Liangjiang Women's Basketball Tour of Japan, Korea, and Southeast Asia, 1931–1935 researched by Jiao [22]. The East-West Confrontation in the North-China Herald during the Nationalist Revolution: a case study of Shao Futang's letters to the editor researched by LI [23]. Towards a connected history of Asian Communism researched by Goscha [24]. From the simple-minded MDGs to the cool-headed SDGs investigated by Vandemoortele [25]. Divided National Identity in Moldova was researched by Baar [26]. 'Here or wherever your America is': idealism, religion, and nationalism researched by Vincent [27]. Citizenship Education Policy: Its influence on students' nationalism and patriotism was studied by Nurdin [28]. The effect of Remembrance Day on national sentiment and animosity toward outsiders: evidence from a panel study in Israel researched by Ariely [29].

Some of the activities held for nationalism to commemorate Indonesia's independence and to commemorate the services of the heroes, such as flag ceremonies, August 17 competitions, putting up flags at each other's homes, and thanksgiving. The history of the competition which aims to celebrate Indonesia's independence day itself only began in the 1950s, because previously the activity on August 17 was only dominated by speeches from the president. The August 17 competition at Padukuhan Nangsri Kidul itself has not been held for a long time since the co-19 pandemic. The competition research has been researched by previous researchers which is used as a reference for the implementation of the August 17 competition. Plasma Uric Acid and Cortisol Levels Associated with Anxiety Before Competition in Beginner Combat Sports Athletes was studied by de Oliveira [30]. Prototyping Mobile Storytelling Applications for People with Aphasia was researched by Szklanny [31]. The attitude of members of sports organizations towards fast food sponsorship was studied by Donaldson [32].

High training volumes are associated with an increased prevalence of non-allergic asthma in competitive cross-country skiers studied by Mäki-Heikkilä [33]. Differences in Physical Performance Between Selected and Non-Selected Spanish Footballers With Cerebral Palsy for the National Team was investigated by Peña-González [34]. Multirole Modeling Based Doudizhu Game Playing Strategy Study was researched by Li [35]. Review of Compliance with Requirements of the 2019/1 Directive (EU) Regarding the Independence and Resources of National Competition Authorities: French and Polish examples investigated by Piszcz [36]. Digital platforms and transaction fee approaches to competition law are researched by Biggar [37]. Bus Routing Optimization Helps Boston Public Schools Design Better Policies researched by Bertsimas [38]. The Favorable Effect of Motor Imagery and Self-Talk on Service Performance in Skilled Tennis Players was investigated by Robin [39]. Impact of COVID-19 Lockdown on Position-Specific Match Running Performance of Professional Soccer Players; The Preliminary Observational Study was investigated by Sekulic [40]. Effects of EU Competition Soft Laws in Decisions of National Competition Authorities: research by Stähler [41].

The effect of 8 weeks of plyometric training on jump height, agility, speed, and asymmetry was investigated by Kosova [42]. The Difference between Nationalist and Globalist Social Groups in the Middle of the COVID-19 Pandemic was researched by He [43]. Timing of Post-Training Vaccinations: Immune Response and Adverse Effects in Athletes was studied by STENGER [44]. Part I Finnish Agility Dog Survey: Training and Management of Competition Agility Dogs was investigated by Inkilä [45]. Internal network structure as opportunity structure: control and effectiveness in European competition networks investigated by Vantaggiato [46]. National Competition Law Lives and Kicks Thanks to the Triple Test for idem researched by Rizzuto [47]. The impact of the COVID-19 pandemic on the mental performance and mental health of Canadian national team athletes: The perspective of mental performance consultants and mental health practitioners researched by Dithurbide [48]. Strength

Development Rate, Muscle Architecture, and Performance in Elite Weightlifters was studied by Zaras [49]. Finding climate adaptation in urban and regional studies was investigated by Kythreotis [50].

Applying a humanistic view through a pass-through style of teaching in teaching: A case study in teaching chemical engineering principles to university students was researched by Yao [51]. Application of the Netherlands ECN+ Directive :: Strengthening Cooperation with National Competition Authorities was researched by de Groes [52]. Analysis of match and heart rate of top level women's beach volleyball players during international and national competitions was investigated by Nunes [53]. Between global collaboration and national competition: Uncovering the many faces of Arctic science diplomacy researched by Ruffin [54]. The physiological stress of basketball referees during national competitions was investigated by Inchauspe [55]. Incidence of injury to young handball players during national competition: A 6 year survey investigated by Asai [56]. Investigation of Jury Performance in National Dance Competitions was researched by Anderlucci [57]. A comparison of psychological constructs in university athletes during national competitions was investigated by Villarreal-Angeles [58]. The National Faculty of Pharmacy Master's Thesis Competition was researched by Plata [59].

Therefore, the KKN team wants to revive the August 17 competition at Padukuhan Nangsri Kidul, because the August 17 competition is an activity that has taken root and has become a culture in Indonesia, so it needs to be preserved. Even though the August 17 competition is a game, this competition also has a meaning, for example a cracker eating contest. The competition is reminiscent of colonial times when people struggled for clothing, food and shelter. Even the most modest nutritional needs are not met resulting in many people being malnourished to the point of starving to death. Therefore, the 17 August competition needs to be preserved as an effort to commemorate Indonesian independence and commemorate the services of heroes who fought for independence.

2. Method

The implementation method for fostering a sense of nationalism is shown in Figure 1. The figure shows that to foster a sense of nationalism the implementation of the August 17 competition began with a discussion with Karang Taruna. After discussions were held to determine the date of the competition and the types of competitions to be held, the KKN team and Karang Taruna made preparations for the competition by purchasing and preparing the materials and equipment needed for the competition. After all the needs have been prepared, then the race can begin. When the competition is over and there are winners in each category, the winners will be announced on August 16, 2022.

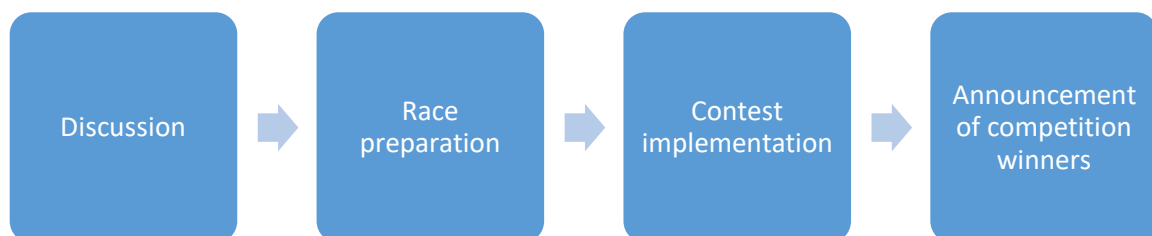

Fig. 1. The method of implementing the national competition

3. Results and Discussion

August 17 Race Preparation

The KKN team collaborated with Karang Taruna to make the August 17 competition a success. The first preparation is to hold a meeting with Karang Taruna as shown in Figure 2 to discuss when the competition will be held and the types of competitions that will be held. After the time for the implementation and the types of competitions have been determined, the KKN team and Karang Taruna prepared the materials and tools needed as shown in Figure 3. The preparations for the competition were carried out on 05 August 2022 at the hamlet's house and at the Nangsri Kidul volleyball court. Preparations include buying tools and materials, filling plastic with water, making small flags, making cones, preparing cardboard boxes, and decorating the volleyball court with Indonesian independence attributes.

Fig. 2. Meeting with Karang Taruna

Fig. 3. Preparing for the competition needs

August 17 Contest Implementation

The competition was held for two days, namely 06 August 2022 and 07 August 2022 as shown in Figure 4. The figure shows that on the first day there were water relay competitions, eating crackers, putting nails in bottles, holding buckets, dancing balls, and fashion shows. On the second day there are competitions for moving flags, eating crackers, moving marbles, sack races, cone ball, water breaking, glass raising, rocking balls, fashion shows, water volleyball, and clothes relay. The competition is divided into several categories, namely early childhood and kindergarten, elementary school, youth (junior high and high school), and adults. The race starts at three in the afternoon and finishes at ten in the evening. The community looks very enthusiastic to follow and watch the race. The announcement of the winners of the competition and the distribution of prizes will be held on the night of the tirakatan, namely on August 16 2022 at the Nangsri Kidul Padukuhan Hall.

Fig. 4. The 17 August 2022 competition

Announcement of Contest Winners

The announcement of the winners of the competition will be held on August 16 2022 which coincides with the tirakatan night as shown in Figure 5. From the figure it can be seen that the series of tirakatan nights starts with the opening and continues with remarks by the committee and the village head. Then proceed with the main event, namely the distribution of prizes. Prizes given in the form of snacks and groceries. After the distribution of the competition prizes, there was a poetry reading by Karang Taruna members. The next activity is silence and prayer reading. The last activity was closing and watching a national film with the KKN team and the people of Nangsri Kidul.

4. Conclusion

Fostering a sense of love for the motherland, a sense of solidarity among people, fostering the spirit of building the Indonesian nation is not enough to do just one time, but needs to be instilled periodically. One way to foster a sense of love for the motherland, a sense of solidarity among people, to foster the spirit of building the Indonesian nation is through the celebration of Independence Day which is held every year on 17 August. It is hoped that this moment of independence can ignite the enthusiasm of the younger generation through various pre-determined competitions. And teaches the importance of independence and how difficult it was for the previous heroes to win independence and respect history.
